EPSDT: MEDICAID COVERAGE FOR CHILDREN

What is EPSDT?

EPSDT is the Federal Medicaid Act's Early and Periodic Screening, Diagnosis and Treatment benefit available to children under the age of 21. In Ohio, we call this Healthchek. EPSDT requires that states cover services necessary to "correct or ameliorate" a child's physical or mental condition. 42 U.S.C. § 1396d(r)(5).

What does *Ameliorate* mean?

To improve or maintain the recipient's health in the best condition possible, compensate for a health problem, prevent it from worsening, or prevent the development of additional health problems.
